Technogel®

NEW CORPORATE WEBSITE · TECHNOGELWORLD.COM

Sitemap & Navigation Plan

A proposed structure for the new global Technogel® website: main navigation, page hierarchy, multilingual URL strategy (EN · DE · IT) and a redirect plan. It is based on a full review of every page of the current site in all three languages.

PREPARED FOR	PREPARED BY	VERSION	DATE
Jon Gerstenschlager · Technogel	Riyaz Lohiya	1.0 · Draft for review	November 2026

01 · SUMMARY

One clear structure for consumers and business partners

The current site already has strong content: 29 products, 9 B2B industries, technology, company and news. But it is hard to navigate and inconsistent between languages, and some of it can't be found by search engines. The proposed structure keeps all existing content and organises it under six main menu items plus a "Where to Buy" hub. Every language then has exactly the same pages.

67 · 59 · 62

Current pages in EN · DE · IT. The language versions are not aligned.

91

Proposed pages per language, the same in EN, DE and IT (273 in total)

6 + 1

Main menu items, plus a "Where to Buy" utility hub

100%

Existing content carried over, with 301 redirects from every old URL

1 **Split the two audiences clearly**

"Products" for consumers and "B2B Solutions" for industry, each with its own menu, content and inquiry path.

2 **Turn collections into real pages**

Original, Vive®, Adjustable, Pixel, Lab, Travel, Advance and more get their own pages instead of anchors on one long page.

3 **Make "Technology" a hub**

Discover the Gel becomes five focused pages: the gel, 3D support, cooling, sleep science, and quality & certifications.

4 **Same structure in every language**

Language in the URL (/en/, /de/, /it/) with translated, readable slugs and hreflang. No more cookie redirects.

5 **One home for downloads**

Consumer warranties & manuals in one place, and B2B data sheets & catalogs in another.

6 **A "Where to Buy" hub**

Store locator, distributors and official online shops together, always one click away.

02 · AUDIENCES & KEY JOURNEYS

Who the site is for, and the shortest path for each

Every navigation decision below is designed to get each of these four groups to their goal in three clicks or fewer.

Consumers

Want better, cooler sleep and need to choose a pillow or mattress and find where to buy it.

Home → Products → Pillows → Original → Deluxe → Where to Buy

B2B buyers & engineers

Evaluate the gel for their own product: properties, Shore hardness, data sheets, process.

Home → B2B Solutions → Industries → Medical → Data sheet → Start a Project

Retailers & distributors

Need product information and partner contacts, and want to sell Technogel® in their market.

Utility bar → Where to Buy → Distributors → Contact

Press, talent & partners

Look for company facts, news, sustainability and career opportunities.

Company → About · Careers | News → Press & Media Kit

03 · CURRENT SITE REVIEW

What exists today: every page, all three languages

We visited every page of technogelworld.com in English (INT), German and Italian. The table shows how many pages each section has per language. Red numbers mark sections that are missing in a language.

SECTION	WHAT'S THERE	EN	DE	IT
Home	Hero, Select your area, ranges, gel, news	1	1	1
Product overviews	Products, Pillows, Mattresses, Living, Accessories	5	4	4
Pillow products	Original (4), Travel (2), Vive (2), Adjustable (2), Pixel (2), Lab (3)	15	15	13
Mattress products	Piacere, Armonia, Favola, Estasi, Vive, Ariaaa Soft & Firm	7	0	7
Living products	Seatpad Flat / Pebble / Wedge, Lumbar, 2in1 Travel, Eye Mask	6	6	6
Accessories	ReCover pillow case	1	0	0
Discover the Gel	Gel, cooling, 3D support, deeper sleep, 12 key properties	1	1	1
Company	History, locations, DNA	1	1	1
Careers	Jobs	0	1	0
B2B overview	Cooperation, approach, gel types	1	1	1
Total	**Plus 40+ PDFs: warranties, 7 B2B data sheets, catalogs**	**67**	**59**	**62**

SECTION	WHAT'S THERE	EN	DE	IT
B2B industries	Automotive, Bonding, Consumer/Leisure, Footwear, Gaming, Industry, Medical, Office, Shooting sports	9	9	9
News	Listing + 13 articles (several not translated in DE/IT)	14	14	14
Contact & where to buy	Contact, Store Locator, Distributors	3	2	2
Legal	Imprint, Privacy, Warranties (+ Applicant privacy in DE)	3	4	3
Total	**Plus 40+ PDFs: warranties, 7 B2B data sheets, catalogs**	**67**	**59**	**62**

HIGH

Language is stored in a cookie, not in the URL

Pages such as /company, /news and /discover show English, German or Italian depending on a cookie. Visitors and tools without that cookie (search engines, link previews, our audit tools) end up in an endless redirect loop. Search engines also can't tell the language versions apart.

New site: Every page gets its own language URL (/en/, /de/, /it/) plus hreflang tags. There are no cookie redirects.

HIGH

Collections are only anchors, not pages

Original, Vive, Adjustable, Pixel, Lab, Travel, Advance and so on are sections of one long page (#original). They can't rank, be linked or be shared on their own.

New site: Each collection becomes its own page (13 new collection pages).

HIGH

Content differs between languages

Careers (Jobs) exists only in German. Distributors and Accessories (ReCover) exist only in English. The Pixel collection is missing in Italian, and the German site has no mattress product pages. Several news articles are not translated.

New site: One shared structure for all three languages. Gaps are agreed and filled, or hidden on purpose.

MEDIUM

Broken links & 404s

/en/B2B/overview/Sport%20Arms, /www.technogelworld.com/discover, /de_DE/produkte/matratzen-kollektion (the live page is '… matratzen-kollektion_copy') and /www.technogelworld.com/it_IT/acopri-il-gel all return 404.

New site: 301 redirect plan for all old URLs, plus a link check before launch.

MEDIUM

URLs are not readable

Product and news URLs contain IDs and typos: viver-deluxe~p1867, news-12~n8249. The Italian 'Discover' slug is 'acopri-il-gel'.

New site: Short, readable, translated slugs (see URL strategy).

MEDIUM

Downloads are scattered

More than 20 warranty PDFs sit under Legal, and the same 7 B2B data sheets are repeated on all 9 industry pages. Catalogs can only be found inside individual pages.

New site: A 'Care, Warranty & Manuals' page for consumers and a 'Downloads & Data Sheets' page for B2B.

MEDIUM

No dedicated B2B lead path

B2B inquiries go through the same general contact form as consumer questions.

New site: A 'Start a Project' page and topic routing on the contact form.

LOW

Labels & typos

Page titles 'Privavy Policy'; the Distributors page is titled 'Discover the Gel' and Accessories 'Living Accessories'; 'Sport Arms' vs 'Shooting sports'; menu typos 'Impluse', 'Recoild', 'Adhesions Tapes', 'accessorie'; Italian 'Impronta' for Imprint.

New site: One naming glossary for EN, DE and IT, with copy checked during the build.

LOW

Where-to-buy is spread out

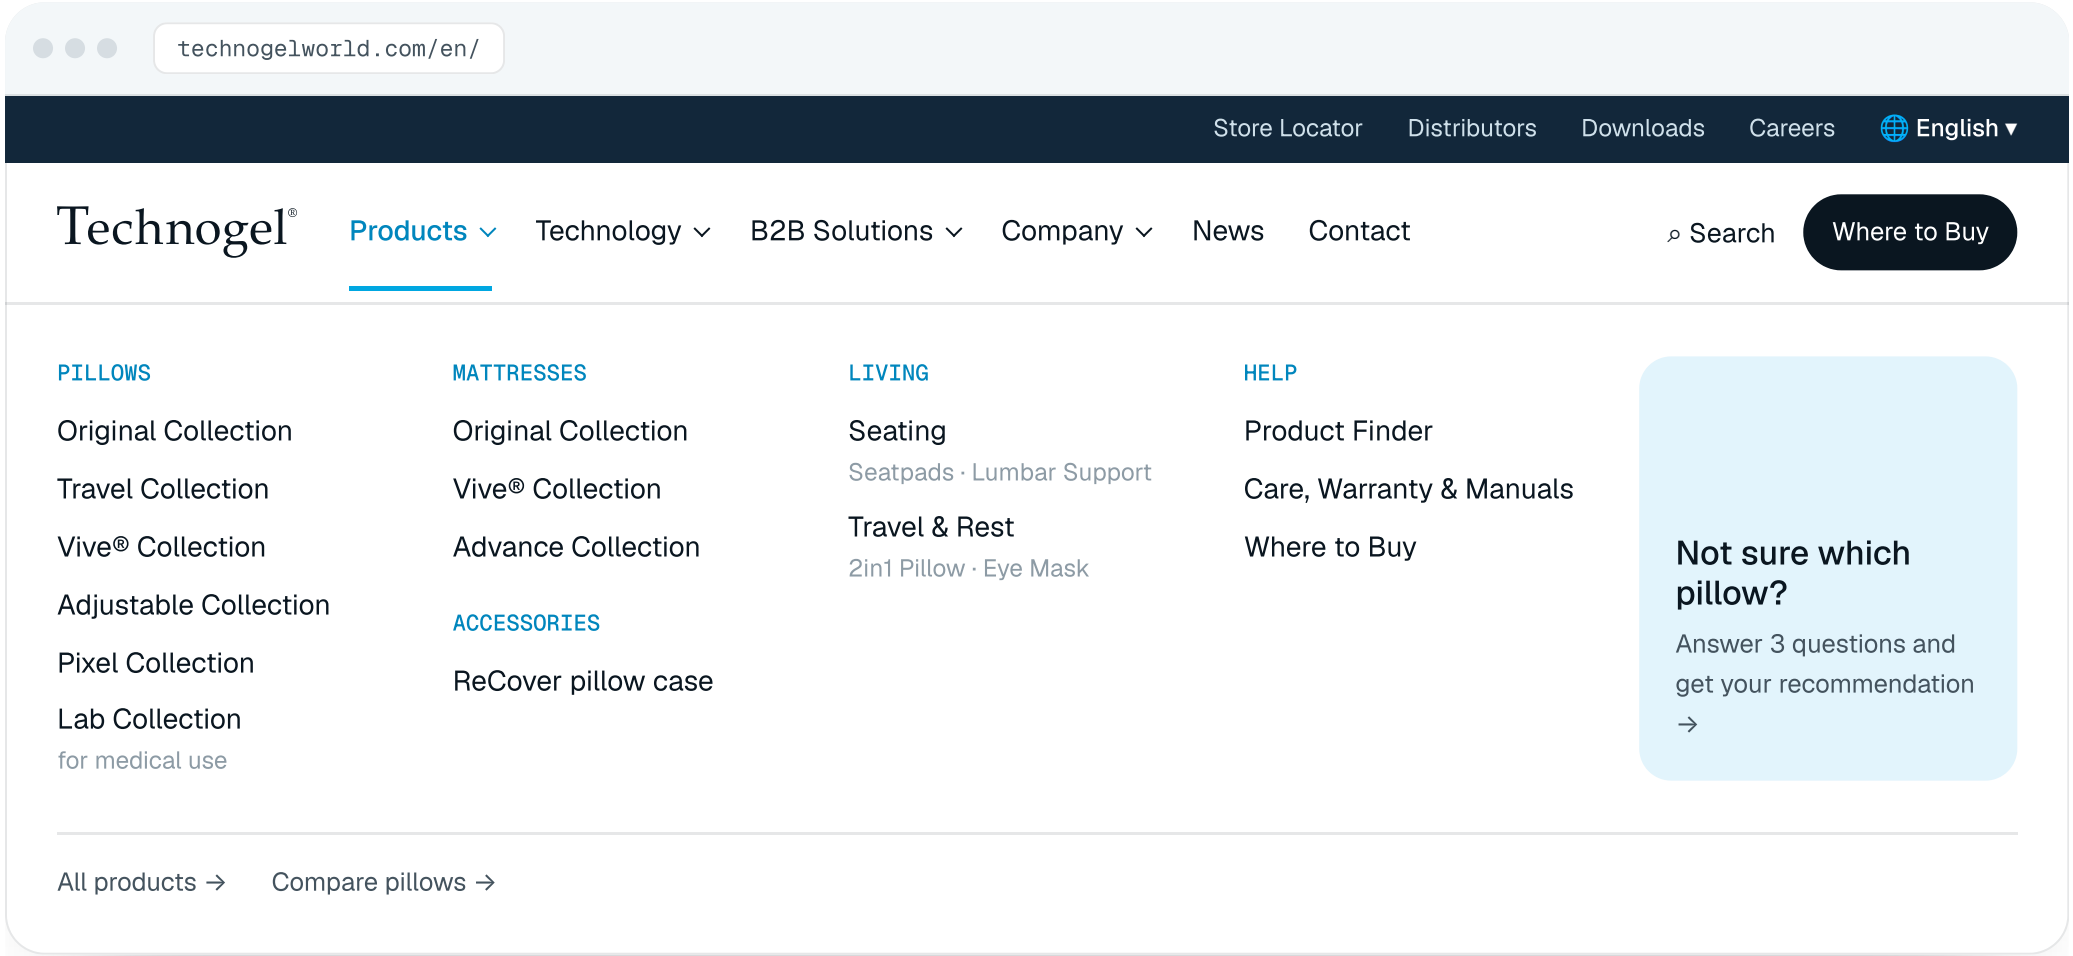

Store Locator sits in the top bar, the Distributors page exists only in English and is hard to find, and online shopping sits behind a separate Shop Online button.

New site: A single 'Where to Buy' hub: Store Locator, Distributors, Online Shops.

04 · PROPOSED NAVIGATION

Six main items, a utility bar and mega menus

The menu labels describe what visitors look for, not internal names. Consumers and business visitors each get a dedicated menu, and "Where to Buy" is always visible. Below is a wireframe of the desktop header and the content of each mega menu.

Mega menu · B2B Solutions

INDUSTRIES

- Automotive
- Medical
- Footwear
- Office
- Gaming

05 · VISUAL SITEMAP

The complete page hierarchy

KEEP IMPROVE MERGE NEW OPTIONAL Green outline = new page · dashed = optional · purple = combined from several pages

Individual product pages (29), industry pages (9) and news articles are listed in section 06, the page-by-page plan. Legal & system pages (Imprint, Privacy Policy, Applicant Privacy, Cookie Settings, Search, 404, Thank-you) are included in the total of 91 pages.

06 · PAGE-BY-PAGE PLAN

Purpose, content and source of every page

The "Current source" column shows where the content comes from today. We will reuse it and refine it, so nothing is lost. Products, industries and news articles share one template each.

ID	PAGE & PROPOSED URL (EN)	KEY CONTENT SECTIONS	CURRENT SOURCE	STATUS

07 · LANGUAGES & URL STRATEGY

Three languages, one structure, readable URLs

Each language lives in its own folder with translated slugs. Pages are linked to their translations with hreflang so that search engines show German visitors the German page, and so on. Product names stay in English in all languages because they are brand names.

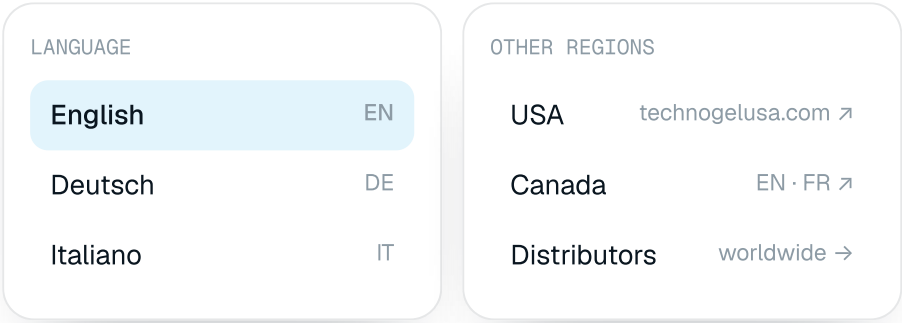

PAGE	ENGLISH	DEUTSCH	ITALIANO
Home	/en/	/de/	/it/
Products	/en/products/	/de/produkte/	/it/prodotti/
Pillows	/en/products/pillows/	/de/produkte/kissen/	/it/prodotti/cuscini/
Product page (example)	/en/products/pillows/original/deluxe/	/de/produkte/kissen/original/deluxe/	/it/prodotti/cuscini/original/deluxe/
Mattresses	/en/products/mattresses/	/de/produkte/matratzen/	/it/prodotti/materassi/
Living	/en/products/living/	/de/produkte/living/	/it/prodotti/living/
Technology	/en/technology/	/de/technologie/	/it/tecnologia/
B2B Solutions	/en/b2b/	/de/b2b/	/it/b2b/
Industry (example)	/en/b2b/industries/medical/	/de/b2b/branchen/medizin/	/it/b2b/settori/medicale/
Company	/en/company/	/de/unternehmen/	/it/azienda/
Careers	/en/company/careers/	/de/unternehmen/karriere/	/it/azienda/lavora-con-noi/
News	/en/news/	/de/news/	/it/news/
Contact	/en/contact/	/de/kontakt/	/it/contatti/

PAGE	ENGLISH	DEUTSCH	ITALIANO
Where to Buy	/en/where-to-buy/	/de/haendler/	/it/dove-acquistare/
Imprint	/en/legal/imprint/	/de/rechtliches/impressum/	/it/note-legali/

Rules

- **Language in the URL, never in a cookie:** /en/, /de/, /it/. Every page can be shared and indexed.
- **Same pages in every language:** if a product isn't sold in a market, it is labelled "not available in your region" rather than missing.
- **The switcher keeps you on the same page:** switching from /en/…/deluxe/ opens /de/…/deluxe/, not the home page.
- **First visit:** the browser language is suggested in a small banner, with no automatic redirect.
- **hreflang + x-default** on all pages, with a separate XML sitemap per language.

Language & region switcher

The current site also serves en_US, en_CA and fr_CA. We recommend linking those regions from the switcher (see Q1) so the world site stays focused on EN, DE and IT.

08 · REDIRECT MAP

Every old URL keeps working

At launch, each current URL is permanently redirected (301) to its new page. This keeps search rankings, bookmarks and links from partners and retailers working. Below is the English mapping. The German and Italian URLs follow the same pattern, and the full list for all languages will be delivered with the build.

CURRENT URL (TECHNOGELWORLD.COM)		NEW URL
/en	→	/en/

09 · PAGE TEMPLATES

14 templates cover all 91 pages

In the design phase we design these templates, not every single page. This keeps the site consistent and easy for your team to maintain in WordPress: new products, industries or news articles are added from the dashboard without any design work.

T01	**Home** Page 0	T02	**Hub / overview page** Pages 1, 2, 3, 4, 7
T03	**Range overview** 1.1 Pillows, 1.2 Mattresses, 1.3 Living	T04	**Collection page** 13 collections, e.g. 1.1.1 Original
T05	**Product detail** 29 products, e.g. Original Deluxe	T06	**Content article** Pages 2.1–2.5, 4.1–4.5
T07	**Industry page** 9 industries, e.g. Medical	T08	**Downloads center** Pages 1.6, 3.4
T09	**Interactive tool** 1.5 Product Finder	T10	**News listing** Pages 5, 5.2
T11	**News article** 13+ articles	T12	**Form page** 3.5 Start a Project, 6 Contact
T13	**Map & directory** 7.1 Store Locator, 7.2 Distributors	T14	**Legal & system** Imprint, Privacy, Cookies, Search, 404, Thank-you

10 · QUESTIONS & NEXT STEPS

Decisions for the management review

The structure above works as it stands. These questions help us fine-tune it. A short answer to each is enough, and the boxes can be ticked during the review meeting.

Q1	Do we confirm English, German and Italian as the three languages at launch? Should the US and Canada versions (en_US, en_CA, fr_CA) stay on this site or move to their regional sites?	☐
Q2	Are all current collections still active: Pixel, Adjustable, Advance (Ariaaa)? Should any be retired before launch?	☐
Q3	Should the product range be the same in all languages, or does each market show only what it sells (for example, mattresses in Germany)?	☐
Q4	Should we add the recommended new pages: Sustainability, Quality & Certifications, Product Finder, Press & Media Kit?	☐
Q5	Who receives each type of inquiry (consumer, B2B project, distributor, press, careers)? We will route the contact forms accordingly.	☐
Q6	Should B2B data sheets and catalogs be freely downloadable, or exchanged for an email address (lead capture)?	☐
Q7	Careers: should job openings be shown in all three languages, or stay German-only with an English summary?	☐
Q8	Should 'Where to Buy' link to official online shops per country, and which shops should be listed?	☐
